

# US Door...

# ...the Company Setting the Industry Standard.

2006 US Door introduces the EZ-Access Door for boat and RV storage, or commercial and industrial condominiums.

At US Door and Building Components, we are the company setting the standard for the self-storage industry. US Door was the innovator of the modular self-storage concept. Our clients include the industry's top developers. Our "made in America" products are often copied but never surpassed. US Door perfected

Hallway and Mezzanine Systems, Relocatable Buildings and Stackable Locker Units, along with Windload and EZ-Access Wicket Doors, plus many more. We offer the best products to meet the demands of today's changing marketplace—always have, always will. Anything else is just pure mythology.

NASA launches the Skylab orbiting space station

The principals of US Door & Building Components enter the storage industry as Roll-Lite® Storage Systems in Orlando, on a mission to go beyond the conventional building standards for mini-storage facilities.

Price of gas skyrockets to 63 cents per gallon

Roll-Lite joins the storage "space race" by introducing its first roll-up door with a fully enclosed barrel for the commercial industry. Most of these original doors are still in use across the globe.

Category 5 Hurricane Andrew devastates South Florida

The engineering crew, now on board with US Door, designs a Windload door that withstood Hurricane Andrew force winds, and quickly became the industry benchmark for windload doors.

John Glenn returns to space on Space Shuttle Discovery

US Door incorporates and expands to Arizona in order to build on the established reputation its principals have developed, for excellence in customer service and cutting-edge product innovation.

World prepares for Y2K computer glitch

On the eve of the new millennium, US Door celebrates Access-A-Deck Mezzanine to double rentable space in the future. Other milestones include Rite-Away Relocatables and Storage Lockers.
